FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can generally be identified by the use of words such as “may,” “believe,” “will,” “expect,” “project,” “estimate,” “intend,” “anticipate,” “plan,” “continue” or similar expressions. In particular, statements under the heading “Outlook” and other information appearing under “Management’s Discussion and Analysis of Financial Condition and Results of Operations” include forward-looking statements. Forward-looking statements inherently involve many risks and uncertainties that could cause actual results to differ materially from those projected in these statements.

Where, in any forward-looking statement, we express an expectation or belief as to future results or events, such expectation or belief is based on the current plans and expectations of our management, expressed in good faith and believed to have a reasonable basis. However, there can be no assurance that the expectation or belief will result or will be achieved or accomplished. More information on factors that could cause actual results or events to differ materially from those anticipated is included from time to time in our reports filed with the Securities and Exchange Commission (the “SEC”), including this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the year ended January 3, 2015, under the caption “Risk Factors,” as well as on the “Investors” section of our corporate website, www.Hanes.com/investors.

All forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q and are expressly qualified in their entirety by the cautionary statements included in this Quarterly Report on Form 10-Q or our Annual Report on Form 10-K for the year ended January 3, 2015, particularly under the caption “Risk Factors.” We undertake no obligation to update or revise forward-looking statements that may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events, other than as required by law.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You can read our SEC filings over the Internet at the SEC’s website at www.sec.gov. To receive copies of public records not posted to the SEC’s web site at prescribed rates, you may complete an online form at www.sec.gov, send a fax to (202) 772-9337 or submit a written request to the SEC, Office of FOIA/PA Operations, 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information.

**Notes to Condensed Consolidated Financial Statements
(dollars and shares in thousands, except per share data)
(unaudited)**

(1) Basis of Presentation

These statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) and, in accordance with those rules and regulations, do not include all information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). Management believes that the disclosures made are adequate for a fair statement of the results of operations, financial condition and cash flows of Hanesbrands Inc., a Maryland corporation, and its consolidated subsidiaries (the “Company” or “Hanesbrands”). In the opinion of management, the condensed consolidated interim financial statements reflect all adjustments, which consist only of normal recurring adjustments, necessary to state fairly the results of operations, financial condition and cash flows for the interim periods presented herein. The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make use of estimates and assumptions that affect the reported amounts and disclosures. Actual results may vary from these estimates. A subsidiary of the Company closes one week earlier than the Company’s consolidated quarter end. The difference in reporting one week of financial information for this subsidiary did not have a material impact on the Company’s financial condition, results of operations or cash flows.

Certain prior year amounts in the notes to condensed consolidated financial statements, none of which are material, have been reclassified to conform with the current year presentation. These reclassifications had no impact on the Company’s results of operations.

These condensed consolidated interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s most recent Annual Report on Form 10-K. The results of operations for any interim period are not necessarily indicative of the results of operations to be expected for the full year.

(2) Recent Accounting Pronouncements

Revenue from Contracts with Customers

In July 2015, the FASB decided to delay effective dates for the new accounting rules related to revenue recognition for contracts with customers by one year. The new standard will be effective for the Company in the first quarter of 2018 with retrospective application required. The Company is currently in the process of evaluating the impact of adoption of the new rules on the Company’s financial condition, results of operations and cash flows.

Debt Issuance Costs

In April 2015, the FASB issued new accounting rules, which require debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. The new rules will be effective for the Company in the first quarter of 2016. The Company does not expect the adoption of the new accounting rules to have a material impact on the Company’s financial condition, results of operations or cash flows.

(3) Acquisitions

Knights Apparel

On April 6, 2015, the Company completed the acquisition of Knights Holdco, Inc. (“Knights Apparel”), a leading seller of licensed collegiate logo apparel in the mass retail channel, from Merit Capital Partners in an all cash transaction valued at approximately \$193,520 on an enterprise value basis. The Company funded the acquisition with cash on hand and short-term borrowings under its Revolving Loan Facility.

The *Knights Apparel* and *Pro Edge* trademarks and brand names, which management believes to have indefinite lives, have been valued at \$12,000. Amortizable intangible assets have been assigned values of \$31,200 for license agreements, \$14,500 for distribution networks, and \$2,250 for non-compete agreements. License agreements are being amortized over 14 years. Distributor relationships are being amortized over 12 years. Non-compete agreements are being amortized over one year.

Knights Apparel contributed net revenues of \$37,100 and \$5,031 of pretax earnings since the date of acquisition. The results of Knights Apparel have been included in the Company’s consolidated financial statements since the date of acquisition and are reported as part of the Activewear segment.

Factors that contribute to the amount of goodwill recognized for the acquisition include the value of the existing work force and cost savings by utilizing the Company’s low-cost supply chain and expected synergies with existing Company functions. Goodwill associated with the acquisition is not tax deductible.

The allocation of purchase price is preliminary and subject to change. The primary areas of the purchase price that are not yet finalized are related to certain income taxes and residual goodwill. Accordingly, adjustments will be made to the values of the assets acquired and liabilities assumed as additional information is obtained about the facts and circumstances, which existed at the valuation date. The acquired assets and assumed liabilities at the date of acquisition (April 6, 2015) include the following:

Cash and cash equivalents	\$	59
Trade accounts receivable		14,879
Inventories		22,820
Deferred tax assets and other		2,190
Trademarks and other identifiable intangibles		59,950
Total assets acquired		99,898
Accounts payable		3,742
Accrued liabilities and other		3,065
Deferred tax liabilities and other noncurrent liabilities		19,964
Total liabilities assumed		26,771
Net assets acquired		73,127
Goodwill		120,393
Purchase price	\$	193,520

Unaudited pro forma results of operations for the Company are presented below for quarter-to-date and year-to-date assuming that the 2015 acquisition of Knights Apparel had occurred on December 29, 2013.

DBApparel Acquisition

In August 2014, MFB International Holdings S.à r.l. (“MF Lux”), a wholly owned subsidiary of the Company, acquired DBA Lux Holding S.A. (“Innerwear Europe”) from SLB Brands Holdings, Ltd and certain individual Innerwear Europe shareholders in an all-cash transaction equal to €400,000 enterprise value less net debt and working capital adjustments as defined in the purchase agreement. Total purchase price was €297,031 (approximately \$391,861 based on acquisition date exchange rates). The acquisition was financed through a combination of cash on hand and third-party borrowings.

Innerwear Europe is a leading marketer of intimate apparel, hosiery and underwear in Europe with a portfolio of strong brands including *DIM*, *Nur Die/Nur Der* and *Lovable*. The Company believes the acquisition will create growth and cost savings opportunities and increased scale to serve retailers. Innerwear Europe utilizes a mix of self-owned manufacturing and third-party manufacturers. Factors that contribute to the amount of goodwill recognized for the acquisition include the value of the existing work force and cost savings by utilizing the Company’s low-cost supply chain and expected synergies with existing Company functions. Goodwill associated with the acquisition is not tax deductible.

The allocation of purchase price is preliminary and subject to change. For the quarter ended July 4, 2015, the Company has not recorded any purchase price adjustments. The primary areas of the purchase price that are not yet finalized are related to certain income taxes and residual goodwill. Accordingly, adjustments will be made to the values of the assets acquired and liabilities assumed as additional information is obtained about the facts and circumstances that existed at the valuation date.

(4) Earnings Per Share and Dividends

Basic earnings per share (“EPS”) was computed by dividing net income by the number of weighted average shares of common stock outstanding. Diluted EPS was calculated to give effect to all potentially dilutive shares of common stock using the treasury stock method. On March 3, 2015, the Company implemented a four-for-one stock split on the Company’s common stock in the form of a 300% stock dividend. All references to the number of shares outstanding, per share amounts and share options data of the Company’s common shares have been restated to reflect the effect of the split for all periods presented.

The reconciliation of basic to diluted weighted average shares outstanding is as follows:

	Quarters Ended		Six Months Ended	
	July 4, 2015	June 28, 2014	July 4, 2015	June 28, 2014
Basic weighted average shares outstanding	403,949	401,920	403,819	401,728
Effect of potentially dilutive securities:				
Stock options	2,091	4,652	2,150	4,844
Restricted stock units	1,468	1,656	1,399	1,572
Employee stock purchase plan and other	2	—	16	—
Diluted weighted average shares outstanding	407,510	408,228	407,384	408,144

For the quarters and six months ended July 4, 2015 and June 28, 2014, there were no options or restricted stock units excluded from the diluted earnings per share calculation because their effect would be anti-dilutive.

For the quarters ended July 4, 2015 and June 28, 2014, the company declared and paid cash dividends of \$0.10 per share. For the six months ended July 4, 2015 and June 28, 2014, the company declared and paid cash dividends of \$0.20 per share.

(6) Debt

Debt consisted of the following:

	Interest Rate as of July 4, 2015	Principal Amount		Maturity Date
		July 4, 2015	January 3, 2015	
Senior Secured Credit Facility:				
Revolving Loan Facility	—%	\$ —	\$ 176,500	April 2020

		2,484,325	1,839,314	
Less current maturities		266,565	225,317	
		<u>\$ 2,217,760</u>	<u>\$ 1,613,997</u>	

On April 29, 2015, the Company refinanced its senior secured credit facility (the “Senior Secured Credit Facility”) to extend the maturity date of the revolving loan facility (the “Revolving Loan Facility”) to April 2020 and reduce the maximum borrowing capacity from \$1,100,000 to \$1,000,000, re-price the Revolving Loan Facility at favorable rates, and add an additional \$850,000 in term loan borrowings (\$425,000 for a new term loan a facility, the “Term Loan A Facility”, and \$425,000 for a new term loan b facility, the “Term Loan B Facility”). The Company incurred \$10,900 in fees related to this refinancing.

The Revolving Loan Facility, the Term Loan A Facility and the Term Loan B Facility are guaranteed by substantially all of the Company’s existing and future direct and indirect U.S. subsidiaries, with certain customary or agreed-upon exceptions for certain subsidiaries. The Company and each of the guarantors under the Revolving Loan Facility, the Term Loan A Facility and the Term Loan B Facility have granted the lenders under the Senior Secured Credit Facility a valid and perfected first priority (subject to certain customary exceptions) lien and security interest in (i) the equity interests of substantially all of the Company’s direct and indirect U.S. subsidiaries and 65% of the voting securities of certain first tier foreign subsidiaries; and (ii) substantially all present and future property and assets, real and personal, tangible and intangible, of the Company and each guarantor, except for certain enumerated interests, and all proceeds and products of such property and assets.

All borrowings under the Revolving Loan Facility must be repaid in full upon maturity. Outstanding borrowings under the Revolving Loan Facility may be reborrowed and repaid without penalty.

Outstanding borrowings under the Term Loan A Facility are repayable in equal quarterly installments in the following annual percentages, with the remainder of the outstanding principal to be repaid at maturity: year 1, 5.0%, year 2, 7.5%, years 3 and 4, 10.0% and year 5, 15.0%.

Outstanding borrowings under the Term Loan B Facility are repayable in 0.25% quarterly installments, with the remainder of the outstanding principal to be repaid at maturity. If the Term Loan B Facility is repriced or refinanced on or prior to the twelve month anniversary of its funding and as a result of such repricing or refinancing the effective interest rate of the Term Loan B Facility decreases, the Company shall be required to pay a prepayment fee equal to 1.0% of the aggregate principal amount of the Term Loan B Facility subject to such repricing or refinancing.

The Term Loan A Facility, the Term Loan B Facility and the Company’s euro term loan facility (the “Euro Term Loan” and together with the Term Loan A Facility and the Term Loan B Facility, the “Term Loan Facility”) require the Company and its subsidiary Maidenform Luxembourg (“MF Lux”), as applicable, to prepay any outstanding Term Loans in connection with (i) the incurrence of certain indebtedness and (ii) non-ordinary course asset sales or other dispositions (including as a result of casualty or condemnation) that exceed certain thresholds in any period of twelve-consecutive months, with customary reinvestment provisions. The New Term Loan B Facility and the Euro Term Loan Facility also require the Company and MFB Lux, as applicable, to prepay any outstanding Term Loans under the New Term Loan B Facility and the Euro Term Loan Facility in connection with excess cash flow, which percentage will be based upon the Company’s leverage ratio during the

relevant fiscal period. All such prepayments will be made on a pro rata basis under each of the applicable Term Loan Facilities that are subject to such prepayments.

At the Company's option, borrowings under the Revolving Loan Facility, the Term Loan A Facility and the Term Loan B Facility may be maintained from time to time as (i) "Base Rate" loans, which bear interest at the highest of (a) 1/2 of 1% in excess of the federal funds rate, (b) the rate publicly announced by JPMorgan Chase Bank as its "prime rate" at its principal office in New York City, in effect from time to time and (c) the "LIBO Rate" (as defined in the Senior Secured Credit Facility and adjusted for maximum reserves) for LIBOR-based loans with a one-month interest period plus 1.0%, in effect from time to time, in each case plus the applicable margin, or (ii) LIBOR-based loans, which bear interest at the LIBO Rate, as determined by reference to the rate for deposits in dollars appearing on the Reuters Screen LIBOR01 or LIBOR02 Page for the respective interest period or other commercially available source designated by the Administrative Agent, in each case plus the applicable margin. The applicable margin for the Revolving Loan Facility and the Term Loan A Facility is based on the Company's leverage ratio. When the leverage ratio is greater than or equal to 4.00 to 1.00, the applicable margin for LIBO Rate loans is 2.00% and the applicable margin for Base Rate loans is 1.00%. When the leverage ratio is less than 4.00 to 1.00 but greater than or equal to 3.25 to 1.00, the applicable margin for LIBO Rate loans is 1.75% and the applicable margin for Base Rate loans is 0.75%. When the leverage ratio is less than 3.25 to 1.00 but greater than or equal to 2.50 to 1.00, the applicable margin for LIBO Rate loans is 1.50% and the applicable margin for Base Rate loans is 0.50%. When the leverage ratio is less than 2.50 to 1.00, the applicable margin for LIBO Rate loans is 1.25% and the applicable margin for Base Rate loans is 0.25%. The applicable margin under the Term Loan B Facility is 2.50% for LIBO Rate loans and 1.50% for Base Rate loans. Borrowings under the Euro Term Loan Facility bear interest at the "EURIBOR Rate" (as defined in the Senior Secured Credit Facility) plus 2.75%.

The Senior Secured Credit Facility requires that the Company maintain a minimum interest coverage ratio and a maximum total debt to EBITDA (earnings before income taxes, depreciation expense and amortization), or leverage ratio. The interest coverage ratio covenant requires that the ratio of the Company's EBITDA for the preceding four fiscal quarters to its consolidated total interest expense for such period shall not be less than 3.00 to 1.00 for any fiscal quarter. The leverage ratio covenant requires that the ratio of the Company's total debt to its EBITDA for the preceding four fiscal quarters will not be more than 4.00 to 1.00; provided that, following a permitted acquisition in which the consideration is at least \$200 million, such maximum leverage ratio covenant shall be increased to 4.50:1.00 for each fiscal quarter ending in the succeeding 12-month period following such permitted acquisition. The method of calculating all of the components used in the covenants is included in the Senior Secured Credit Facility.

The Senior Secured Credit Facility contains customary events of default, including nonpayment of principal when due; nonpayment of interest after stated grace period, fees or other amounts after stated grace period; material inaccuracy of representations and warranties; violations of covenants; certain bankruptcies and liquidations; any cross-default to material indebtedness; certain material judgments; certain events related to the Employee Retirement Income Security Act of 1974, as amended, or "ERISA," actual or asserted invalidity of any guarantee, security document or subordination provision or non-perfection of security interest, and a change in control (as defined in the Senior Secured Credit Facility).

As of July 4, 2015, the Company had \$981,943 of borrowing availability under the \$1,000,000 revolving credit facility under its senior secured credit facility after taking into account outstanding borrowings and \$18,057 of standby and trade letters of credit issued and outstanding under this facility.

The Other International Debt outstanding as of July 4, 2015 consists of mortgage loans and term loans collateralized by fixed assets. These loans have maturity dates ranging from December 2015 to May 2018, and bear interest primarily based on EURIBOR rates ranging from 1.485% to 6.25% as of July 4, 2015.

In March 2015, the Company amended the accounts receivable securitization facility that it entered into in November 2007 (the "Accounts Receivable Securitization Facility"). This amendment primarily extended the termination date to March 2016.

As of July 4, 2015, the Company was in compliance with all financial covenants under its credit facilities.

(8) Financial Instruments and Risk Management

The Company uses forward foreign exchange contracts to manage its exposures to movements in foreign exchange rates. As of July 4, 2015, the notional U.S. dollar equivalent of commitments to sell and purchase foreign currencies within the Company’s derivative portfolio was \$279,606 and \$423, respectively, primarily consisting of contracts hedging exposures to the Euro, Canadian dollar, Mexican peso and Australian dollar.

Fair Values of Derivative Instruments

The fair values of derivative financial instruments recognized in the Condensed Consolidated Balance Sheets of the Company were as follows:

	Balance Sheet Location	Fair Value	
		July 4, 2015	January 3, 2015
Hedges	Other current assets	\$ 5,065	\$ 3,447
Non-hedges	Other current assets	2,959	2,960

Cash Flow Hedges

The Company uses forward foreign exchange contracts to reduce the effect of fluctuating foreign currencies on short-term foreign currency-denominated transactions, foreign currency-denominated investments and other known foreign currency exposures. Gains and losses on these contracts are intended to offset losses and gains on the hedged transaction in an effort to reduce the earnings volatility resulting from fluctuating foreign currency exchange rates.

The Company expects to reclassify into earnings during the next 12 months a net gain from AOCI of approximately \$9,433.

The changes in fair value of derivatives excluded from the Company's effectiveness assessments and the ineffective portion of the changes in the fair value of derivatives used as cash flow hedges are reported in the "Selling, general and administrative expenses" line in the Condensed Consolidated Statements of Income.

The effect of cash flow hedge derivative instruments on the Condensed Consolidated Statements of Income and AOCI is as follows:

	Amount of Gain Recognized in AOCI (Effective Portion)		Amount of Gain Recognized in AOCI (Effective Portion)	
	Quarters Ended		Six Months Ended

Derivative Contracts Not Designated As Hedges

The Company uses foreign exchange derivative contracts as economic hedges against the impact of foreign exchange fluctuations on existing accounts receivable and payable balances and intercompany lending transactions denominated in foreign currencies. These contracts are not designated as hedges under the accounting standards and are recorded at fair value in the Condensed Consolidated Balance Sheet. Any gains or losses resulting from changes in fair value are recognized directly into earnings. Gains or losses on these contracts largely offset the net remeasurement gains or losses on the related assets and liabilities.

The effect of derivative contracts not designated as hedges on the Condensed Consolidated Statements of Income is as follows:

	Location of Gain (Loss) Recognized in Income on Derivative	Amount of Gain (Loss) Recognized in Income		Amount of Gain (Loss) Recognized in Income	
		Quarters Ended		Six Months Ended	
		July 4, 2015	June 28, 2014	July 4, 2015	June 28, 2014

(9) Fair Value of Assets and Liabilities

As of July 4, 2015, the Company held certain financial assets and liabilities that are required to be measured at fair value on a recurring basis. These consisted of the Company's derivative instruments related to foreign exchange rates and deferred

(unaudited)

compensation plan liabilities. The fair values of foreign currency derivatives are determined using the cash flows of the foreign exchange contract, discount rates to account for the passage of time and current foreign exchange market data and are categorized as Level 2. The fair value of deferred compensation plans is based on readily available current market data and is categorized as Level 2. The Company's defined benefit pension plan investments are not required to be measured at fair value on a recurring basis.

There were no changes during the quarter ended July 4, 2015 to the Company's valuation techniques used to measure asset and liability fair values on a recurring basis. There were no transfers between the three level categories and there were no Level 3 assets or liabilities measured on a quarterly basis during the quarter ended July 4, 2015. As of and during the quarter ended July 4, 2015, the Company did not have any non-financial assets or liabilities that were required to be measured at fair value on a recurring or non-recurring basis.

The following tables set forth, by level within the fair value hierarchy, the Company's financial assets and liabilities accounted for at fair value on a recurring basis.

	Assets (Liabilities) at Fair Value as of July 4, 2015

Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, trade accounts receivable, notes receivable and accounts payable approximated fair value as of July 4, 2015 and January 3, 2015. The carrying amount of trade accounts receivable included allowance for doubtful accounts, chargebacks and other deductions of \$29,243 and \$16,856 as of July 4, 2015 and January 3, 2015, respectively. The fair value of debt, which is classified as a Level 2 liability, was \$2,573,466 and \$1,893,514 as of July 4, 2015 and January 3, 2015, respectively. Debt had a carrying value of \$2,484,325 and \$1,839,314 as of July 4, 2015 and January 3, 2015, respectively. The fair values were estimated using quoted market prices as provided in secondary markets, which consider the Company's credit risk and market related conditions. The carrying amounts of the Company's notes payable, which is classified as a Level 2 liability, approximated fair value as of July 4, 2015 and January 3, 2015, primarily due to the short-term nature of these instruments.

(10) Income Taxes

HANESBRANDS INC.

Notes to Condensed Consolidated Financial Statements — (Continued)
(dollars and shares in thousands, except per share data)
(unaudited)

The Company's effective income tax rate was 13% and 17% for the quarters ended July 4, 2015 and June 28, 2014, respectively. The Company's effective income tax rate was 14% and 16% for the six months ended July 4, 2015 and June 28, 2014, respectively. The lower effective income tax rate for the quarter ended July 4, 2015 compared to the quarter ended June 28, 2014 was primarily due to a lower proportion of earnings attributed to domestic subsidiaries, which are taxed at rates higher than foreign subsidiaries as well as an income tax benefit recognized in the second quarter of 2015 related to the realization of an unrecognized tax benefit resulting from the effective settlement of a position in a foreign jurisdiction. The lower effective income tax rate for the six months ended July 4, 2015 compared to the six months ended June 28, 2014 was primarily due to a lower proportion of earnings attributed to domestic subsidiaries, which are taxed at rates higher than foreign subsidiaries.

(11) Business Segment Information

The Company's operations are managed and reported in four operating segments, each of which is a reportable segment for financial reporting purposes: Innerwear, Activewear, Direct to Consumer and International. These segments are organized principally by product category, geographic location and distribution channel. Each segment has its own management that is responsible for the operations of the segment's businesses, but the segments share a common supply chain and media and marketing platforms.

The types of products and services from which each reportable segment derives its revenues are as follows:

- Innerwear sells basic branded products that are replenishment in nature under the product categories of men's underwear, children's underwear, socks, panties, hosiery and intimates, which includes bras and shapewear.
- Activewear sells basic branded products that are primarily seasonal in nature under the product categories of branded printwear and retail activewear, as well as licensed logo apparel in collegiate bookstores, mass merchant and other channels.
- Direct to Consumer includes the Company's value-based ("outlet") stores and Internet operations that sell products from the Company's portfolio of leading brands. The Company's Internet operations are supported by its catalogs.
- International primarily relates to the Europe, Asia, Latin America, Canada and Australia geographic locations that sell products that span across the Innerwear and Activewear reportable segments.

The Company evaluates the operating performance of its segments based upon segment operating profit, which is defined as operating profit before general corporate expenses and amortization of intangibles. The accounting policies of the segments are consistent with those described in Note 2 to the Company's consolidated financial statements included in its Annual Report on Form 10-K for the year ended January 3, 2015. The Company decided in the first quarter of 2015 to revise the manner which the Company allocates certain selling, general and administrative expenses. Certain prior-year segment operating profit disclosures have been revised to conform to the current-year presentation.

For the quarter ended July 4, 2015, the Company incurred acquisition, integration and other action related charges of \$125,966, of which \$26,151 is reported in the “Cost of sales” line and \$99,815 is reported in the “Selling, general and administrative expenses” line in the Condensed Consolidated Statement of Income. For the quarter ended June 28, 2014, the Company incurred acquisition, integration and other action related charges of \$24,045, of which \$3,835 is reported in the “Cost of sales” line and \$20,210 is reported in the “Selling, general and administrative expenses” line in the Condensed Consolidated Statement of Income.

For the six months ended July 4, 2015, the Company incurred acquisition, integration and other action related charges of \$169,194, of which \$40,219 is reported in the “Cost of sales” line and \$128,975 is reported in the “Selling, general and administrative expenses” line in the Condensed Consolidated Statement of Income. For the six months ended June 28, 2014, the Company incurred acquisition, integration and other action related charges of \$66,682, of which \$18,662 is reported in the “Cost of sales” line and \$48,020 is reported in the “Selling, general and administrative expenses” line in the Condensed Consolidated Statement of Income.

As part of the Innerwear Europe acquisition strategy, the Company has identified management and administrative positions that are considered non-essential and/or duplicative that will be eliminated. As of July 4, 2015, the Company has accrued \$56,000 for employee termination and other benefits recognized in accordance with expected benefit payments for affected employees. The charges are reflected in the “Cost of sales” and “Selling, general and administrative expenses” lines of the Consolidated Statements of Income. As of July 4, 2015, no benefit payments had been made. \$17,000 and \$39,000, respectively, is included in the “Accrued liabilities” and “Other noncurrent liabilities” line of the Consolidated Balance Sheet.

(12) Consolidating Financial Information

In accordance with the indenture governing the Company’s \$1,000,000 6.375% Senior Notes issued on November 9, 2010, as supplemented from time to time, certain of the Company’s subsidiaries have guaranteed the Company’s obligations under the 6.375% Senior Notes. The following presents the condensed consolidating financial information separately for:

- (i) Parent Company, the issuer of the guaranteed obligations. Parent Company includes Hanesbrands Inc. and its 100% owned operating divisions, which are not legal entities, and excludes its subsidiaries, which are legal entities;
- (ii) Guarantor subsidiaries, on a combined basis, as specified in the Indentures;
- (iii) Non-guarantor subsidiaries, on a combined basis;
- (iv) Consolidating entries and eliminations representing adjustments to (a) eliminate intercompany transactions between or among Parent Company, the guarantor subsidiaries and the non-guarantor subsidiaries, (b) eliminate

intercompany profit in inventory, (c) eliminate the investments in the Company's subsidiaries and (d) record consolidating entries; and
(v) The Company, on a consolidated basis.

The 6.375% Senior Notes are fully and unconditionally guaranteed on a joint and several basis by each guarantor subsidiary, each of which is 100% owned, directly or indirectly, by Hanesbrands Inc. A guarantor subsidiary's guarantee can be released in certain customary circumstances. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements, except for the use by the Parent Company and guarantor subsidiaries of the equity method of accounting to reflect ownership interests in subsidiaries that are eliminated upon consolidation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis of financial condition and results of operations, or MD&A, contains forward-looking statements that involve risks and uncertainties. Please see "Forward-Looking Statements" in this Quarterly Report on Form 10-Q for a discussion of the uncertainties, risks and assumptions associated with these statements. This discussion should be read in conjunction with our historical financial statements and related notes thereto and the other disclosures contained elsewhere in this Quarterly Report on Form 10-Q. The unaudited condensed consolidated financial statements and notes included herein should be read in conjunction with our audited consolidated financial statements and notes for the year ended January 3, 2015, which were included in our Annual Report on Form 10-K filed with the SEC. The results of operations for the periods reflected herein are not necessarily indicative of results that may be expected for future periods, and our actual results may differ materially from those discussed in the forward-looking statements as a result of various factors, including but not limited to those included elsewhere in this Quarterly Report on Form 10-Q and those included in the "Risk Factors" section and elsewhere in our Annual Report on Form 10-K for the year ended January 3, 2015.

Overview

We are a consumer goods company with a portfolio of leading apparel brands, including *Hanes*, *Champion*, *Bali*, *Playtex*, *Maidenform*, *DIM*, *JMS/Just My Size*, *L'eggs*, *Nur Die/Nur Der*, *Flexees*, *Wonderbra*, *Gear for Sports*, *Lilyette*, *Lovable*, *Rinbros*, *Shock Absorber*, *Track N Field*, *Abanderado* and *Zorba*. We design, manufacture, source and sell a broad range of basic apparel such as T-shirts, bras, panties, men's underwear, children's underwear, activewear, socks and hosiery.

Our operations are managed and reported in four operating segments, each of which is a reportable segment for financial reporting purposes: Innerwear, Activewear, Direct to Consumer and International. These segments are organized principally by product category, geographic location and distribution channel. Each segment has its own management that is responsible for the operations of the segment's businesses, but the segments share a common supply chain and media and marketing platforms. One of our subsidiaries closes one week earlier than the consolidated quarter end. The difference in reporting one week of financial information for this subsidiary did not have a material impact on our financial condition, results of operations or cash flows. In the first quarter of 2015, we revised the manner in which we allocate certain selling, general and administrative expenses. Certain prior-year segment operating profit disclosures have been revised to conform to the current-year presentation.

Highlights from the Second Quarter and Six Months Ended July 4, 2015

Key financial highlights during the quarter are as follows:

- Total net sales in the second quarter of 2015 were \$1.5 billion, compared with \$1.3 billion in the same period of 2014, representing a 13% increase.
- Operating profit decreased 33% to \$139 million in the second quarter of 2015, compared with \$207 million in the same period of 2014. As a percentage of sales, operating profit was 9.1% in the second quarter of 2015 compared to 15.4% in the same period of 2014. Included within operating profit for the second quarter of 2015 and 2014 were acquisition, integration and other action related charges of \$126 million and \$24 million, respectively.
- On March 3, 2015, we effected a four-for-one stock split in the form of a stock dividend to stockholders of record as of the close of business on February 9, 2015. All references to the number of common shares outstanding, per share amounts and and share options data have been restated to reflect the effect of the split for all periods presented.
- Diluted earnings per share decreased 39% to \$0.23 in the second quarter of 2015, compared with diluted earnings per share of \$0.38 in the same period of 2014.
- We acquired Knights Holdco, Inc. ("Knights Apparel") on April 6, 2015. The total purchase price paid at closing was \$194 million. The acquisition was funded with cash on hand and short-term borrowings. We believe the acquisition, when combined with our *Gear For Sports* brand, will create a commercial business that will take advantage of combined expertise in brand building, marketing, graphic design, licensing relationships, supply chain and retailer relationships across channels. The operating results of Knights Apparel from the date of acquisition are included in the Activewear segment.

Outlook

We expect our 2015 full year sales to be slightly less than \$5.9 billion.

Interest expense and other expenses are expected to be approximately \$100 million combined, including approximately \$8 million from higher debt balances and debt refinancing associated with the Knights Apparel acquisition.

We estimate our full year effective income tax rate to be approximately 13%.

We expect cash flow from operations to be approximately \$550 million, which reflects approximately \$100 million in pension contributions. Net capital expenditures are expected to be approximately \$95 million and dividend payments are expected to be roughly \$160 million.

Our current estimate for pretax charges in 2015 for acquisition, integration and other actions is approximately \$240 million or more as a result of our exit from the commercial organization in the China market, estimated integration costs associated with the Knights Apparel acquisition, and the incurrence of DBA-related integration costs sooner than originally expected. We currently expect these charges related to Maidenform to be completed by the end of the third quarter of 2015. Foundational charges are expected to be completed by the end of 2015.

Seasonality and Other Factors

Our operating results are subject to some variability due to seasonality and other factors. Generally, our diverse range of product offerings helps mitigate the impact of seasonal changes in demand for certain items. We generally have higher sales during the back-to-school and holiday shopping seasons and during periods of cooler weather, which benefits certain product categories such as fleece. Sales levels in any period are also impacted by customers' decisions to increase or decrease their inventory levels in response to anticipated consumer demand. Our customers may cancel or change delivery schedules, manage on-hand inventory levels, or change the mix of products ordered with minimal notice to us. Media, advertising and promotion expenses may vary from period to period during a fiscal year depending on the timing of our advertising campaigns for retail selling seasons and product introductions.

Although the majority of our products are replenishment in nature and tend to be purchased by consumers on a planned, rather than on an impulse basis, our sales are impacted by discretionary spending by consumers. Discretionary spending is affected by many factors, including, among others, general business conditions, interest rates, inflation, consumer debt levels, the availability of consumer credit, taxation, gasoline prices, weather, unemployment trends and other matters that influence consumer confidence and spending. Many of these factors are outside of our control. Consumers' purchases of discretionary items, including our products, could decline during periods when disposable income is lower, when prices increase in response to rising costs, or in periods of actual or perceived unfavorable economic conditions. These consumers may choose to purchase fewer of our products or to purchase lower-priced products of our competitors in response to higher prices for our products, or may choose not to purchase our products at prices that reflect our price increases that become effective from time to time.

Changes in product sales mix can impact our gross profit as the percentage of our sales attributable to higher margin products, such as intimate apparel and men's underwear, and lower margin products, such as activewear, fluctuate from time to time. In addition, sales attributable to higher and lower margin products within the same product category fluctuate from time to time. Our customers may change the mix of products ordered with minimal notice to us, which makes trends in product sales mix difficult to predict. However, certain changes in product sales mix are seasonal in nature, as sales of socks, hosiery and fleece products generally have higher sales during the last two quarters (July to December) of each fiscal year as a result of cooler weather, back-to-school shopping and holidays, while other changes in product mix may be attributable to customers' preferences and discretionary spending.

Condensed Consolidated Results of Operations — Second Quarter Ended July 4, 2015 Compared with Second Quarter Ended June 28, 2014

Net Sales

Net sales increased 13% during the second quarter of 2015 primarily due to the following:

- Acquisition of Innerwear Europe in August 2014, which added an incremental \$149 million of net sales in 2015;
- Acquisition of Knights Apparel in April 2015, which added an incremental \$37 million of net sales in 2015; and
- Higher net sales in our Activewear driven by growth in our Champion and Gear For Sports businesses.

Offset by:

- Lower sales in our Innerwear segment due to lower sales of Intimates products (bras and shapewear) driven by sluggish category trends and a short-term shipment reduction as we executed our brand consolidation strategy at retail; and
- Unfavorable foreign currency exchange rates. Excluding the impact of foreign currency reductions, consolidated net sales and International segment net sales increased 15% and 115%, respectively.

Gross Profit

Our gross profit was higher for the second quarter of 2015 as compared to the same period of 2014. The increase in gross profit was attributable to results obtained from our recent acquisitions of Innerwear Europe and Knights Apparel combined with supply chain efficiencies and our Innovate-to-Elevate strategy, which combines our brand power, our innovation platforms and our low cost supply chain to drive margin expansion by increasing our price per unit and reducing our cost per unit. Included with gross profit in the second quarter of 2015 and the second quarter of 2014 are charges of approximately \$26 million and \$4 million, respectively, related to acquisition, integration and other action related costs.

Selling, General and Administrative Expenses

As a percentage of net sales, our selling, general and administrative expenses were 28.2% for the second quarter compared to 22.1% in the same period of 2014. The higher selling, general and administrative expenses were primarily attributable to charges of \$100 million related to acquisition, integration and other action related costs whereas we incurred \$20 million of acquisition, integration and other action related costs in the second quarter of 2014. Also included in 2015 were selling, general and administrative costs totaling \$63 million resulting from our purchase of Innerwear Europe. Exclusive of the impact of higher acquisition, integration and other action related costs and the purchase of Innerwear Europe, selling, general and administrative expenses were lower due to expense management and synergy benefits from the integration of Maidenform.

Other Highlights

Interest Expense – higher by \$8 million in the second quarter of 2015 compared to the second quarter of 2014 primarily due to higher debt balances related to the acquisition of Knights Apparel. Our weighted average interest rate on our outstanding debt was 3.72% during the second quarter of 2015, compared to 4.02% in the second quarter of 2014.

Income Tax Expense – our effective income tax rate was 13% and 17% for the second quarter of 2015 and the second quarter of 2014, respectively. The lower effective income tax rate was primarily due to a lower proportion of earnings attributed to domestic subsidiaries, which are taxed at rates higher than foreign subsidiaries, as well as a discrete tax benefit related to the settlement of a position in a foreign jurisdiction.

Segment operating profit	196,035	183,917	12,118	6.6

The lower net sales in our Innerwear segment primarily resulted from the following:

- Lower net sales of intimates products driven by sluggish category trends and the short-term pressures from our announced brand consolidation efforts.

Partially offset by:

- Higher sales in our basics products (including men's underwear, panties, kid's underwear and socks) driven by increased market share and new program shipments of our X-Temp products.

Supply chain efficiencies primarily driven by synergies gained from our Maidenform acquisition and our Innovate-to-Elevate strategy continues to drive margin expansion in our Innerwear segment as we are able to reduce our cost per unit. Selling, general and administrative costs in the second quarter of 2015 were lower than the corresponding period in 2014 due to synergies gained from the Maidenform acquisition.

Segment operating profit	61,485	47,459	14,026	29.6

Activewear net sales increased due to the following:

- Higher sales in our *Gear for Sports* licensed apparel, primarily due to net space gains and higher sales volume;
- Higher sales for our *Champion* branded product due to space gains at retail and a favorable retail environment for athletic apparel; and
- The acquisition of Knights Apparel on April 6, 2015.

Our Innovate-to-Elevate strategy continues to drive margin expansion in our Activewear segment as we are able to increase our price per unit with product innovations and reduce our cost per unit. Additionally, our Knights Apparel acquisition had a favorable impact to the Activewear net sales and operating profit. Strong selling, general and administrative cost management helped add to the increase in operating profit over the prior year.

Direct to Consumer segment net sales were lower due to lower sales volume. Comparable store sales were approximately 3% lower in the second quarter of 2015 compared to the same period of 2014 resulting from the soft retail environment. Lower comparable store sales for the second quarter of 2015 as compared to the second quarter of 2014 were partially offset by an increase in e-commerce sales.

Direct to Consumer segment operating margin increased primarily due to lower advertising and selling costs.

Net sales in the International segment were higher as a result of the following:

- Incremental sales of Innerwear Europe products following its acquisition on August 29, 2014.

Offset by:

- Continued unfavorable impact of foreign currency exchange rates.

Operating margins in Japan increased primarily due to higher sales volume, partially offset by foreign currency exchange rates.

Corporate

Corporate expenses were comprised primarily of certain administrative costs and acquisition, integration and other action related charges totaling \$126 million in the second quarter of 2015 as compared to \$24 million for the second quarter of 2014. Acquisition and integration costs are expenses related directly to an acquisition and its integration into the organization. These costs include legal fees, consulting fees, bank fees, severance costs, certain purchase accounting items, facility closures, inventory write-offs, infrastructure (including information technology), and similar charges. Foundational costs are expenses associated with building infrastructure to support and integrate current and future acquisitions, primarily consisting of information technology spend. A significant majority of Other costs are non-cash and relate to the exit of our commercial sales organization in the China market. The main factors that drove the decision to exit the China market were primarily related to the fragmented underwear market and business practices for innerwear and activewear in China that were not conducive to our wholesale business model. Exiting China is immaterial to our consolidated financial results and inconsequential to the International business.

Net Sales

Net sales increased 14% in the six months of 2015 compared to the same period of 2014 as a result of the following:

- Acquisition of Innerwear Europe in August 2014, which added an incremental \$333 million of net sales;
- Acquisition of Knights Apparel in April 2015, which added an incremental \$37 million of net sales; and
- Higher net sales in our Gear For Sports business, which is in our Activewear segment.

Offset by:

- Lower sales in our Innerwear segment due to lower sales of Intimates products driven by sluggish category trends and a short-term shipment reduction as we executed our brand consolidation strategy at retail; and
- Unfavorable foreign currency exchange rates. Excluding the impact of foreign currency reductions, consolidated net sales and International segment net sales increased 15% and 140%, respectively.

Gross Profit

Our gross profit was higher for the six months of 2015 as compared to the same period in 2014 as we continue to integrate our recent acquisitions. Additionally, we continue to maintain strong profit margins in our core business because of our supply chain efficiencies coupled with our Innovate-to-Elevate strategy that allows us to combine our brand and supply chain strengths with product innovation. Included with gross profit in the six months of 2015 and 2014 are charges of \$40 million and \$19 million, respectively, related to acquisition, integration and other action related costs.

Selling, General and Administrative Expenses

As a percentage of net sales, our selling, general and administrative expenses were 28.8% for the six months of 2015 compared to 24.2% in the same period of 2014. The higher selling, general and administrative expenses were primarily attributable to charges of \$129 million related to acquisition, integration and other action related costs whereas we incurred \$48 million of acquisition, integration and other action related costs in the six months of 2014. Also included in 2015 were selling, general and administrative costs totaling \$138 million resulting from our purchase of Innerwear Europe. Exclusive of the impact of higher acquisition, integration and other action related costs and the purchase of Innerwear Europe, selling, general and administrative expenses were lower due to expense management.

Other Highlights

Interest Expense – higher by \$13 million for the six months of 2015 compared to the six months of 2014 primarily due to higher debt balances related to the acquisition of Knights Apparel. Our weighted average interest rate on our outstanding debt was 3.87% during the six months of 2015 whereas the similar rate for the six months of 2014 was 4.07%.

Income Tax Expense – our effective income tax rate was 14.1% and 16.5% for the six months of 2015 and the six months of 2014, respectively. The lower effective income tax rate was primarily attributable to a lower portion of earnings earned in domestic subsidiaries, which are taxed at higher rates than foreign subsidiaries.

The lower net sales in our Innerwear segment primarily resulted from the following:

- Lower net sales of intimates products driven by sluggish category trends and the short-term pressures from our announced brand consolidation efforts.

Efficiency gains from our supply chain and our Innovate-to-Elevate strategy continued to drive margin expansion in our Innerwear segment. Higher distribution expenses offset a portion of the margin improvement. Selling, general and administrative costs in the second quarter of 2015 were lower than the corresponding period in 2014 due to synergies gained from the Maidenform acquisition.

The higher net sales in our Activewear segment is attributable to the following:

- Higher net sales in Gear for Sports licensed apparel due to net space gains and higher sales volume; and
- The acquisition of Knights Apparel.

Margin expansion was driven by higher sales volume and further development of our Innovate-to-Elevate strategy in our Activewear segment as we are able to increase our price per unit with product innovations and reduce our cost per unit. The margin improvement was partially offset by higher distribution costs in the six months of 2015 as compared to the same period of 2014 due to increased sales.

Net sales in the International segment were higher as a result of the following:

- Incremental sales of Innerwear Europe products as a result of its acquisition on August 29, 2014; and
- Higher sales volume in Asia due to net space gains.

Offset by:

- 13 percentage point unfavorable impact of foreign currency exchange rates.

Operating margins in Japan increased primarily due to higher sales volume, partially offset by foreign currency exchange rates.

Liquidity and Capital Resources

Trends and Uncertainties Affecting Liquidity

Our primary sources of liquidity are cash generated by operations and availability under the \$1.0 billion revolving credit facility (the “Revolving Loan Facility”) under our senior secured credit facility (the “Senior Secured Credit Facility”), our accounts receivable securitization facility (the “Accounts Receivable Securitization Facility”) and our international loan facilities.

At July 4, 2015, we had \$982 million of borrowing availability under our Revolving Loan Facility (after taking into account outstanding letters of credit), \$145 million of borrowing availability under our international loan facilities, \$315 million in cash and cash equivalents and \$43 million of borrowing availability under our Accounts Receivable Securitization Facility. We currently believe that our existing cash balances and cash generated by operations, together with our available credit capacity, will enable us to comply with the terms of our indebtedness and meet foreseeable liquidity requirements.

We typically use cash during the first half of the year and generate most of our cash flow in the second half of the year. We expect our cash deployment strategy in the future will include a mix of dividends, acquisitions and share repurchases.

Dividends

As part of our cash deployment strategy, in January 2015 and April 2015 our Board of Directors declared a regular quarterly dividend of \$0.10 per share, which were paid in March 2015 and June 2015, respectively. On July 28, 2015, our Board of Directors authorized a regular quarterly dividend of \$0.10 per share to be paid September 9, 2015 to stockholders of record at the close of business on August 18, 2015.

In addition, on March 3, 2015, we implemented a four-for-one stock split on our common stock in the form of a 300% stock dividend to stockholders of record at the close of business on February 9, 2015.

Share Repurchase Program

On April 28, 2015, our Board of Directors amended our existing share repurchase program to reflect the effect of the four-for-one stock split on our common stock that occurred on March 3, 2015. We are now authorized to repurchase up to 40 million shares of our common stock, less such number of shares, on a split-adjusted basis, as we have previously repurchased. Since the inception of the program in 2007, we have purchased 11.2 million shares of our common stock (on a split-adjusted basis) at a cost of \$75 million (average price per share of \$6.70 on a split-adjusted basis). We did not repurchase any of our common stock during the first six months of 2015.

Cash Requirements for Our Business

We rely on our cash flows generated from operations and the borrowing capacity under our Revolving Loan Facility, Accounts Receivable Securitization Facility and international loan facilities to meet the cash requirements of our business. The primary cash requirements of our business are payments to vendors in the normal course of business, capital expenditures, maturities of debt and related interest payments, contributions to our pension plans, repurchases of our stock and regular quarterly dividend payments. We believe we have sufficient cash and available borrowings for our foreseeable liquidity needs.

There have been no significant changes in the cash requirements for our business from those described in our Annual Report on Form 10-K for the year ended January 3, 2015.

Sources and Uses of Our Cash

The information presented below regarding the sources and uses of our cash flows for the six months ended July 4, 2015 and June 28, 2014 was derived from our condensed consolidated financial statements.

	Six Months Ended	
	July 4, 2015	June 28, 2014

Change in cash and cash equivalents	75,499	27,754
Cash and cash equivalents at beginning of year	239,855	115,863
Cash and cash equivalents at end of period	<u>\$ 315,354</u>	<u>\$ 143,617</u>

Operating Activities

Our overall liquidity is primarily driven by our strong cash flow provided by operating activities, which is dependent on net income, as well as changes in our working capital. We typically use cash during the first half of the year and generate most of our cash flow in the second half of the year. As compared to prior year, the lower net cash from operating activities is due to changes in working capital, specifically related to inventory, accounts receivable, accounts payable and accrued liabilities, and a \$100 million voluntary contribution to our pension plan.

Investing Activities

The lower net cash from investing activities resulted primarily from the Knights Apparel acquisition of \$194 million.

Financing Activities

The higher net cash from financing activities was primarily the result of higher net borrowings on our loan facilities, specifically due to new borrowings under the Senior Secured Credit Facility related to the Knights Apparel acquisition.

Financing Arrangements

In March 2015, we amended the accounts receivable securitization facility that we entered into in November 2007 (the “Accounts Receivable Securitization Facility”). This amendment primarily extended the termination date to March 2016.

On April 29, 2015, we refinanced our Senior Secured Credit Facility to, among other things, extend the maturity date of the Revolving Loan Facility to April 2020, re-price the Revolving Loan Facility at favorable rates and add an additional \$850 million in term loan borrowings. After the refinancing, our domestic debt was comprised of a \$1 billion revolving credit facility, a \$425 million New Term Loan A and an additional \$425 million Term Loan B. We incurred \$10.9 million in fees related to this refinancing. A portion of the proceeds was used as financing for the Knights Apparel acquisition with the balance to be used for working capital and other corporate purposes.

As of July 4, 2015, we were in compliance with all financial covenants under our credit facilities. We expect to maintain compliance with our covenants for the foreseeable future, however economic conditions or the occurrence of events discussed under “Risk Factors” in our Annual Report on Form 10-K for the year ended January 3, 2015 or other SEC filings could cause noncompliance.

There have been no other significant changes in the financing arrangements from those described in our Annual Report on Form 10-K for the year ended January 3, 2015.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements within the meaning of Item 303(a)(4) of SEC Regulation S-K.

Critical Accounting Policies and Estimates

We have chosen accounting policies that we believe are appropriate to accurately and fairly report our operating results and financial condition in conformity with U.S. GAAP. We apply these accounting policies in a consistent manner. Our

significant accounting policies are discussed in Note 2, “Summary of Significant Accounting Policies,” to our financial statements included in our Annual Report on Form 10-K for the year ended January 3, 2015.

The application of critical accounting policies requires that we make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures. These estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances. We evaluate these estimates and assumptions on an ongoing basis and may retain outside consultants to assist in our evaluation. If actual results ultimately differ from previous estimates, the revisions are included in results of operations in the period in which the actual amounts become known. The critical accounting policies that involve the most significant management judgments and estimates used in preparation of our financial statements, or are the most sensitive to change from outside factors, are discussed in Management’s Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended January 3, 2015. There have been no material changes in these policies from those described in our Annual Report on Form 10-K for the year ended January 3, 2015.

Recently Issued Accounting Pronouncements

Revenue from Contracts with Customers

In July 2015, the FASB delayed effective dates for the new accounting rules related to revenue recognition for contracts with customers by one year. The new standard will be effective for the Company in the first quarter of 2018 with retrospective application required. The Company is currently in the process of evaluating the impact of adoption of the new rules on the Company’s financial condition, results of operations and cash flows.

Debt Issuance Costs

In April 2015, the FASB issued new accounting rules, which require debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. The new rules will be effective for the Company in the first quarter of 2016. The Company does not expect the adoption of the new accounting rules to have a material impact on the Company’s financial condition, results of operations or cash flows.

Item 3. *Quantitative and Qualitative Disclosures about Market Risk*

There have been no significant changes in our market risk exposures from those described in Item 7A of our Annual Report on Form 10-K for the year ended January 3, 2015.

Item 4. *Controls and Procedures*

As required by Exchange Act Rule 13a-15(b), our management, including our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures, as defined in Exchange Act Rule 13a-15(e), as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective.

In connection with the evaluation required by Exchange Act Rule 13a-15(d), our management, including our Chief Executive Officer and Chief Financial Officer, concluded that no changes in our internal control over financial reporting occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We excluded our wholly-owned subsidiary, Knights Apparel, from our assessment of internal control over financial reporting as of July 4, 2015 because our control over the operation was acquired in a purchase combination during 2015.

PART II

Item 1. *Legal Proceedings*

Although we are subject to various claims and legal actions that occur from time to time in the ordinary course of our business, we are not party to any pending legal proceedings that we believe could have a material adverse effect on our business, results of operations, financial condition or cash flows.

Item 1A. *Risk Factors*

We review and, where applicable, update our risk factors each quarter. The risk factor set forth below is in addition to the risk factors previously disclosed in Part I, Item 1A, of our Annual Report on Form 10-K for the fiscal year ended January 3, 2015.

Work stoppages, union and works council campaigns and other labor disputes could adversely impact our productivity and results of operations.

As of January 3, 2015, we had approximately 59,500 employees, approximately 87% of whom were located outside the United States. Although only approximately 40 employees in the United States are covered by collective bargaining agreements, a significant portion of our employees based in foreign countries are represented by works councils or unions or subject to trade-sponsored or governmental agreements. Although we believe our relations with our employees are generally good and we have experienced no material strikes or work stoppages recently, we cannot assure you that any of our facilities will not experience a work stoppage or other labor disruption. Any work stoppage or other labor disruption involving our employees could have a material adverse effect on our business, financial condition or results of operations by disrupting our ability to manufacture and distribute our products.

Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds*

None.

Item 3. *Defaults Upon Senior Securities*

None.

Item 4. *Mine Safety Disclosures*

Not applicable.

Item 5. *Other Information*

None.

Item 6. *Exhibits*

The exhibits listed in the accompanying Exhibit Index are filed or furnished as part of this Quarterly Report on Form 10-Q.

FIRST AMENDMENT, dated as of May 5, 2015 (this "Amendment"), to the THIRD AMENDED AND RESTATED CREDIT AGREEMENT, dated as of April 29, 2015 (as amended, supplemented or otherwise modified prior to the date hereof, the "Credit Agreement"), among HANESBRANDS INC., a Maryland corporation (the "Parent Borrower"), MFB INTERNATIONAL HOLDINGS S.À R.L., a société à responsabilité limitée, incorporated and existing under the laws of the Grand Duchy of Luxembourg, having its registered office at 33, rue du Puits Romain, L-8070 Bertrange and registered with the Luxembourg Trade and Companies Register under number B 182.082 (the "Lux Borrower"), and together with the Parent Borrower, the "Borrowers"), the Lenders party thereto, Branch Banking & Trust Company and SunTrust Bank, as the Co-Documentation Agents, Barclays Bank PLC, HSBC Securities (USA) Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated and PNC Bank, National Association, as the Co-Syndication Agents, JPMORGAN CHASE BANK, N.A., as the Administrative Agent and the Collateral Agent (the "Administrative Agent"), and J.P. Morgan Securities LLC, Barclays Bank PLC, HSBC Securities (USA) Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated and PNC Capital Markets LLC, as the Joint Lead Arrangers and Joint Bookrunners.

W I T N E S S E T H :

WHEREAS, the Borrowers have requested that the Credit Agreement be amended to amend the definition of "Interest Period" in Section 1.1 of the Credit Agreement;

WHEREAS, the Required Lenders are willing to agree to this Amendment on the terms and subject to the conditions set forth herein.

NOW, THEREFORE, pursuant to Section 10.1 of the Credit Agreement the parties hereto hereby agree as follows:

Section 1. DEFINITIONS.

1.1 Defined Terms. Terms defined in the Credit Agreement and used herein shall have the meanings given to them in the Credit Agreement unless otherwise defined herein.

SECTION 2. AMENDMENT PURSUANT TO SECTION 10.1.

2.1 Amendment of the Definition of "Interest Period". The definition of "Interest Period" in Section 1.1 of the Credit Agreement is hereby amended and restated in its entirety as follows:

"Interest Period" means, relative to any LIBO Rate Loan or EURIBOR Rate Loan, the period beginning on (and including) the date on which such Loan is made or continued as, or (if applicable) converted into, a LIBO Rate Loan or EURIBOR Rate Loan pursuant to Sections 2.3 or 2.4 and shall end on (but exclude) (i) the day which numerically corresponds to such date one, two, three or six months and, if agreed by all affected Lenders, twelve months thereafter (or, if any such month has no numerically corresponding day, on the last Business Day of such month) or (ii) any other day as agreed to by all affected Lenders, as the applicable Borrower may select in its relevant notice pursuant to Sections 2.3 or 2.4; provided that,

(a) the Borrowers shall not be permitted to select Interest Periods to be in effect at any one time which have expiration dates occurring on more than twelve different dates; and

(b) if such Interest Period would otherwise end on a day which is not a Business Day, such Interest Period shall end on the next following Business Day (unless such next following Business Day is the first Business Day of a calendar month, in which case such Interest Period shall end on the Business Day next preceding such numerically corresponding day).”

2.2 Conditions to Effectiveness of Amendment. This Amendment shall become effective on the date on which the Administrative Agent shall have received this Amendment, executed and delivered by the Borrowers and the Required Lenders.

2.3 Continuing Effect; No Other Waivers or Amendments. This Amendment shall not constitute an amendment or waiver of or consent to any provision of the Credit Agreement and the other Loan Documents not expressly referred to herein and shall not be construed as an amendment, waiver or consent to any action on the part of the Borrowers that would require an amendment, waiver or consent of the Administrative Agent, the Collateral Agent or the Lenders except as expressly stated herein. Except as expressly amended, consented to or waived hereby, the provisions of the Credit Agreement and the other Loan Documents are and shall remain in full force and effect in accordance with their terms.

2.4 Loan Documents. This Amendment shall constitute a “Loan Document” for all purposes under the Credit Agreement and the other Loan Documents. Each Loan Party executing this Amendment confirms and agrees that notwithstanding the effectiveness of this Amendment, each Loan Document to which such Person is a party is, and shall continue to be, in full force and effect and is hereby ratified and confirmed in all respects, in each case as amended by this Amendment.

2.5 Counterparts. This Amendment may be executed in any number of separate counterparts by the parties hereto (including by telecopy or via electronic mail), each of which counterparts when so executed shall be an original, but all the counterparts shall together constitute one and the same instrument.

2.6 GOVERNING LAW. THIS AMENDMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES UNDER THIS AMENDMENT SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAW OF THE STATE OF NEW YORK, WITHOUT REGARD TO THE CONFLICT OF LAWS PRINCIPLES THEREOF, BUT GIVING EFFECT TO FEDERAL LAWS APPLICABLE TO NATIONAL BANKS.

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be executed and delivered by their respective duly authorized officers as of the date first above written.

**CERTIFICATION PURSUANT TO
SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002**

I, Richard A. Noll, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Hanesbrands Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
